

CONVENIENT PATIENT ENTERTAINMENT

HiMed Cockpit 14 proX

Revolutionary process integration and patient entertainment
Innovative technology for the highest demands

The HiMed Cockpit proX is more than just an entertainment system for patients - it is a digital tool that supports nursing staff and doctors. Developed for the point of care, it combines state-of-the-art technology with intelligent networking to make hospital processes more efficient and patient-oriented, optimizing processes and enabling seamless documentation through the integration of RFID technology and patient identification. Secure video communication facilitates exchanges between patients, nursing staff and doctors - even across hospital boundaries. Thanks to future-proof IT architecture, other digital applications can be seamlessly integrated to increase the hospital's efficiency and attractiveness.

At the same time, the HiMed Cockpit proX offers patients a unique entertainment experience with a brilliant display and intuitive operation. The digital functions promote patient recovery and satisfaction.

State-of-the-art technology "Made in Germany" makes the HiMed Cockpit proX a pioneer of digital transformation in the healthcare sector. Rely on this innovative system to optimize your processes and take the patient experience in your hospital to a new level.

Cockpit 14 proX with HandSET

TECHNICAL INFO

- CPU: Intel Quad Core
- Working memory 8 GB RAM

Display

- 13,3" Diagonal
- Resolution: 1920x1080
- Brightness: 300 cd/m²
- Viewing angle: 85/85/85/85

Touch

- Capacitive, multitouch
- Antiglare + antifinger print
- Integrated function keys

Audio/Video

- Stereo Speakers
- Switch-off via headphones
- Mute function
- Integrated microphone

Camera

- 5MP
- Full HD
- Autofocus
- Camera Shutter

Interfaces

- RFID
- LAN, 1 Gbit
- Stereo headphone connection
- External USB-C port with fast charging function
- 3x internal USB 3.0

Power supply

- 12 VDC / 1,9 A
- PoE+ IEEE 802.3at

Dimensions and weight

- 338 x 251 x 39 mm
- Approx. 1,8 kg

INFOTAINMENT

Telephone

- Patient terminals*
 - HandSET
 - MediSET
- SIP incl. Video
- Missed call

TV

- IPTV MPEG2/4 (SD/HD/FHD)
- Multi-channel sound
- Subtitles
- EPG incl. voluntary self-regulation

Radio

- IP-Radio
- Web-Radio*

Internet

- Secure HTML5-Browser

BYOD (Bring Your Own Device)

- Connection and billing
- Login data at the terminal
- Smart pairing
- WLAN access point
- Bluetooth headphones
- Safe fast charging via USB

E-payment

- Pay online with credit card or Paypal

The information provided in this data sheet contains merely general descriptions of performance characteristics, which in case of actual use do not always apply as described or which may change as a result of further development of the products.

An obligation to provide the respective characteristics shall only exist if expressly agreed in the terms of the contract.

PROCESSES

- Access to the HIS
- Patient portal
- Central solution for administration, billing and control
- Flexible billing options for users and services via units, time, flat rates and packages
- User interface can be configured centrally (customer-specific adaptations)

Further web applications*

- Menu ordering
- Video conferencing
- Building facility management
- Games
- Digital newspapers
- DRM Video

Standards

- CE
- UKCA
- RCM (Australia)
